Commissioner for Patents

See the attached response.

James F. Hook
Primary Examiner
Art Unit: 3754

Response to Amendment

The reply filed on September 10, 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): the reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references, currently there is no specific arguments presented which point out how the claims filed in the amendment are patentable over the prior art rejections (see MPEP 714 for specifics on how to file amendments which can be found on the USPO website). It is also noted by the examiner that the proposed amendment to the specification would be new matter, in that the subject matter proposed in the amendment was not originally presented and cannot be entered into the specification without being considered new matter, applicant may wish to correct this with any subsequent response. It is also noted that there are proposed drawing corrections being provided with the amendment as well which are improper, figures may have numbers representing different features of the drawing which are referred to in the specification but is not suppose to have words provided in the figure itself. Applicant may wish to correct this as well. All guidance in how to submit drawing corrections, the proper form of drawings, and procedures can all be found in the MPEP on the USPTO website. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James F. Hook whose telephone number is (571) 272-4903. The examiner can normally be reached on Monday to Wednesday, work at home Thursdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Shaver can be reached on (571) 272-4720. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
